PROFESSIONAL SUMMARY

Detail-oriented Junior UI Engineer and Full Stack Web Developer with hands-on experience building responsive web applications using **React.js, JavaScript, HTML, CSS, and Node.js**. Experienced in developing reusable UI components, integrating REST APIs, creating forms and data-driven interfaces, debugging browser issues, and building responsive layouts across desktop, tablet, and mobile devices. Strong understanding of Git/GitHub, database-driven applications, and clean, maintainable code. Interested in building practical business software, dashboards, and interfaces that make complex information easier to understand and use.

TECHNICAL SKILLS

Frontend & UI

HTML5 CSS3 JavaScript React.js
Responsive Design UI Components Accessibility

Development Tools

Git GitHub VS Code Chrome DevTools
Postman

Backend & APIs

Node.js Express.js REST APIs API Integration
MySQL

Core Competencies

Clean Code Debugging Problem Solving
Cross-browser Testing Performance
Attention to Detail

SELECTED PROJECTS

1. Personal Portfolio Website

[React](#) · [Node.js](#) · [Three.js](#) · [CSS](#)

- Developed an interactive developer portfolio using React and Three.js with animated 3D visual elements and modern UI design.
- Engineered a fully responsive interface optimized for desktop, tablet, and mobile devices.
- Focused on usability, visual hierarchy, accessibility, performance, and cross-device compatibility.

GitHub: github.com/nariyahet/Portfolio

2. Currency Converter

[HTML](#) · [CSS](#) · [JavaScript](#) · [REST API](#)

- Developed a responsive currency conversion application using semantic HTML, CSS, and JavaScript.
- Integrated an exchange-rate API to fetch and display live currency conversion data.
- Implemented dynamic currency selection, country flags, instant conversion, and user-friendly error handling.

Live Demo: nariyahet.github.io/Currency-Converter

GitHub: github.com/nariyahet/Currency-Converter

3. Tic-Tac-Toe Game

[HTML](#) · [CSS](#) · [JavaScript](#)

- Built a responsive interactive game with dynamic UI updates and JavaScript-based game state management.
- Implemented winning-condition detection, player turns, reset functionality, and dynamic notifications.
